

SOPHIE DIERICKX

• freelance project coordinator •

ABOUT ME

Do you have a **project with a mission originated from a heart's desire to make the world a better place?** A project around **sustainable and/or social change and impact?**

Are you looking for someone with strong coordination, financial and/or IT skills with the necessary dose of sensitivity to help support and realise your project?

I am a freelancer **with extensive experience in project coordination, IT, financial and administrative support** and I like to use these skills together with focus and drive for endeavors that soulfully want to be brought into this world.

My heart warms to organisations/projects working on **nature's well-being, organic food, alternative living, conscious consumption, alternative economy and personal development.** I feel fulfilled and energised to use my talents and be of service for something I believe in myself.

I am at my best in project-based assignments. The **duration** is preferably **min. 3 months** and may also last **several years.** I am available for projects from **4 hours a week up to 15 hours a week.** I work **mainly online** as I reside both in Belgium and abroad. I usually take a couple of weeks off during winter time and six weeks off during summer time. And it is worth mentioning that I would be happy to deviate from the above framework for those projects I feel an exceptionally deep connection with and commitment to.

SKILLS

Strongly connected with my rational side as well as my emotional side

Quick at creating an overview and insight into what needs to be done

Bridge between technical IT language and understandable language
